BEHIND-THE-NECK STEREO HEADSET QUICK START GUIDE

MODEL 164368

Thank you for purchasing the MANHATTAN® Behind-The-Neck Stereo Headset, Model 164368.

Small and lightweight, it delivers quality stereo sound and features an adjustable omni-directional condenser microphone, all in a comfortable "behind-the-neck" design that doesn't get tangled in hair or jewelry.

Flexible microphone boom for hands-free communication
Comfortable padded earphones ideal for music, instant messengers and multimedia
Color-coded 3.5 mm stereo plugs with strain relief help secure fast, easy and reliable connections.
Durable cable with nylon mesh protective jacket
Adjustable inline volume control
